

English

Our English learning is inspired by the class text *The Lost Bear*.

- **Writing:**
Descriptive writing (settings and characters)
Persuasive writing linked to environmental issues
- **Reading:** Developing comprehension skills including inference, retrieval and summarising.
- **Grammar:** Continuing to apply punctuation and sentence structure accurately.

Spellings will be given out on a Monday, to be tested on a FRIDAY.

RE

Our big question is:

**“What can be done to reduce racism?
Can religion help?”**

- Children will explore issues of fairness, equality and respect.
- Discussions will encourage thoughtful reflection and respect for different viewpoints.

Maths

In Maths, children will build on their prior learning and apply their skills in new contexts.

Geometry: Understanding shape, position and direction, including angles and coordinates.

Arithmetic and Reasoning

We will be working hard to develop and enhance our fluency skills to then apply this to problem solving.

“Let your light shine...”

Woodchurch CE Primary School

Term 5 Owl Class

Learning Overview

PE - Netball

Pupils will develop passing, shooting, and footwork skills and apply tactics in game situations.

PE will be on Wednesday afternoons and Team Theme on Friday Mornings.

PSHE

Children will explore mental health, resilience, and positive relationships. They will develop self-awareness, learn strategies to manage emotions and stress.

Connected Curriculum - Powering the Planet

Our connected curriculum brings subjects together through our key enquiry question:

“How does the distribution of natural resources shape the world we live in?”

- **Geography:** Children will explore where resources such as water, oil and energy are found and how this affects different countries.
- **DT:** Designing and building mechanical systems, exploring how gears and pulleys help us use energy efficiently.

This topic encourages pupils to think about sustainability and the future of our planet.
