

### I already know:

- ★ Different vehicles move in different ways.
- ★ The world around us changes over time.
- ★ People and places are connected through travel.

### Vocabulary

#### Transport

Ways of moving people or goods from one place to another.

#### Travel

Going from one place to another.

#### Steam Engine

A machine that uses steam to make things move.

#### Invention

Something new that someone creates.

#### Compare

To find what is the same or different.

#### Past

A long time ago.

#### Present

The time we live in now.

#### Pollution

Harm to the air, land, or water.

#### Electric

Powered by electricity instead of petrol.

#### Sustainable

Good for the planet and won't run out.

### Key People

#### Important People

- **George Stephenson** – Invented the *Rocket* steam train.
- **The Wright Brothers** – Invented the first successful airplane.
- **Karl Benz** – Built the first petrol-powered car.

### Timeline

Time Period	Picture	What People Used to Travel
Ancient Times	(horse and cart, simple wooden boat)	People walked, rode horses, and used small boats.
18th Century	(steam train)	Steam engines were invented.
19th Century	(penny farthing, early motor car)	Bicycles and the first motor cars appeared.
20th Century	(airplane, cruise ship, modern car)	Planes, cars, and large ships became common.
21st Century	(bullet train, electric car, rocket)	Electric cars and super-fast trains are used.

### Key Places

#### The capital city of the UK

Home to famous transport like the London Underground and red double-decker buses.

Underground trains, buses, black cabs.

#### Liverpool, England

A historic port city where ships brought goods from around the world.

- **1769:** First self-propelled road vehicle
- **1804:** First steam-powered locomotive
- **1903:** First powered flight

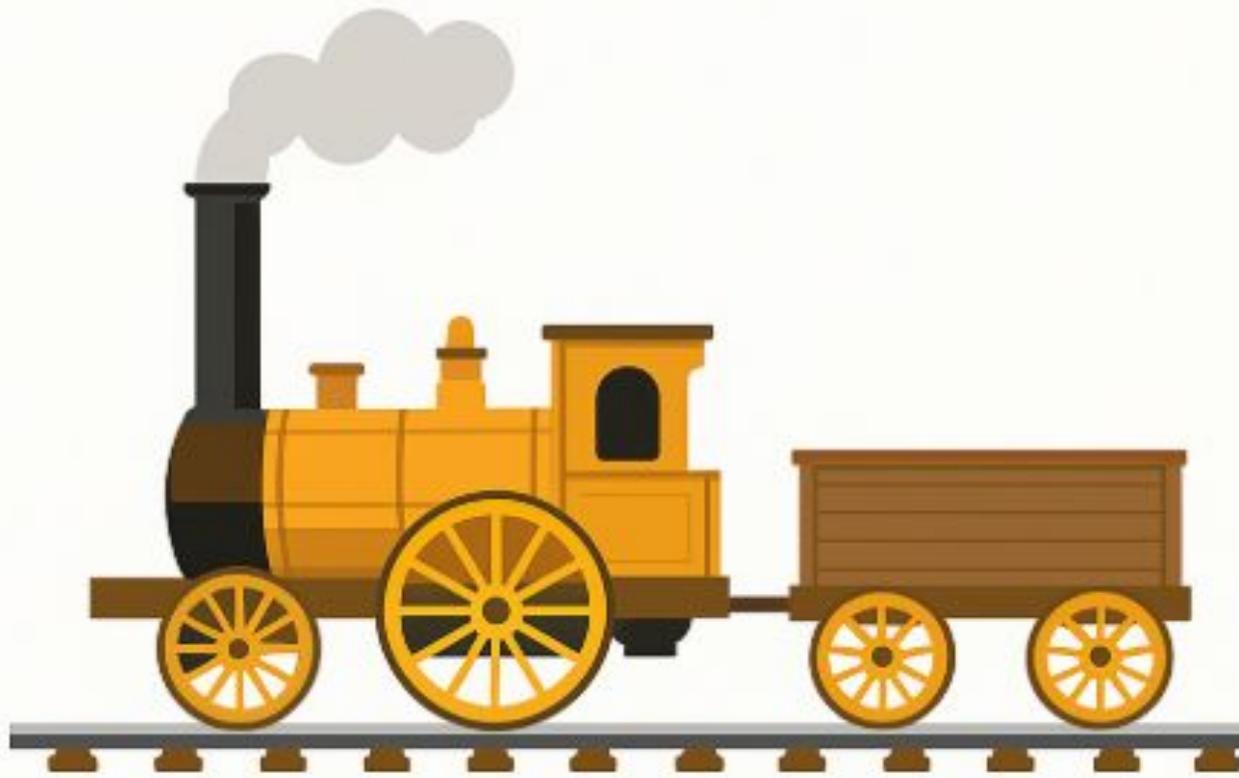

### Concepts

- Change and continuity
  - Cause and effect
- Innovation and contract
- Human impact and environment
- Comparison and contrast

- **1769:** First self-propelled road vehicle
- **1804:** First steam-powered locomotive
- **1903:** First powered flight

Our project this  
term is: Wheels,  
Wings & Wonderful  
things!

# Big Question

How has transport  
changed over time?

# Important People

- **George Stephenson** – Invented the *Rocket* steam train.
- **The Wright Brothers** – Invented the first successful airplane.
- **Karl Benz** – Built the first petrol-powered car.
